

ABOUT

MIA KELSO

Hi everyone! My name is Mia Kelso, and I am from Mansfield, Texas. I am a junior Mathematics major with a Data Analytics minor. After my graduation in 2026, I want to continue to get my master's in petroleum engineering as well! At TCU, I am a member of Phi Mu sorority, and outside of TCU, I am a babysitter, part-time tutor, and volunteer at the Down Syndrome Partnership of North Texas. For fun, I love photography, traveling around the world, snorkeling at some amazing coral reefs, and watching movies. I am so excited to be a CSE peer mentor and am looking forward to meeting y'all!
