

ABOUT

Davis Wagnon

Hey everyone! My name is Davis Wagnon and I'm a Biochemistry major from Tallahassee, Florida. I am so excited and privileged to serve as a peer mentor for the College of Science & Engineering. I have found that getting involved within the college has enriched my experience in a very daunting field more than I could hope for. I am a current servant team leader of TCU's Reformed University Fellowship youth group (RUF), the historian for Chemistry Club 2025-2026, a member of John V. Roach Honors Cabinet, part of the Green Research Lab, and a PreHealth ambassador.

I was a big athlete in high school, growing up a devout Georgia football diehard fan, and an avid tennis player as well. Let me know if you want to hit sometime, and also if you need some advice in CSE. STEM is a ominous field, but a rewarding one in getting to learn about the hidden beauty ingrained in the world around us.
