

ABOUT

# HOPE SAGE

Hi everyone! My name is Hope Sage and I am from Houston, Texas. I am a junior Biophysics major and mathematics and chemistry minor. I am in Dr. Hana Dobrovolyony's research lab and an officer in the Society of Physics Students. I ran track and field during my first two years at TCU and am now training for a triathlon. I enjoy the outdoors, reading science fiction, learning new things, and involvement in my church. I'm always up for a thought experiment conversation about anything from the universe to flashlights. I love TCU and am always happy to help/answer any questions you have.
