

ABOUT

KEYLIN BOYD

Hey! My name is Keylin Boyd, and I am a 3rd year student from Dallas, Texas! My major is Electrical Engineering with a Math minor! On campus, I am a Community Scholar Scholarship recipient as well as a member of the National Society of Black Engineers (NSBE) and the Black Student Association (BSA). I am also a research assistant at Purdue University where this past summer, we explored different methods of electrifying the chemical industry. Pretty cool stuff! Outside of academics, I enjoy playing video games (mostly Minecraft lol) and traveling to different amusement parks across the country. I am excited to be a CSE peer mentor, and looking forward to meeting you all very soon!
