

ABOUT

SIERRA SINGLETON

Hi everyone, my name is Sierra Singleton! I am a senior psychology major with a minor in child development from Oceanside, California. I plan to become a pediatric psychologist one day. In addition, I am involved in Greek life, a member of Psi-Chi, a Leaders for life mentor, TCU dutchmen, frog camp director, and the assistant hall director of King and wright Hall. I am also a research assistant in the Hill Lab under Dr. Sarah Hill. Outside of TCU, I enjoy reading, spontaneous adventures with friends, painting, crocheting, and photography! I am so excited to be a peer mentor this semester and to meet all of you!
