

ABOUT

# Tanner Temple

Howdy! My name is Tanner Temple and I am a junior computer science major minoring in spanish and mathematics. Although born in Houston, I grew up in east Pennsylvania before returning to the great state of Texas as a horned frog. I love to run, travel, and spend time outdoors while also enjoying chess and movie marathons. At TCU, I volunteer as a day of service leader and as a member of honors college community service while also hanging with great people at TCU Catholic and Young Life.

I am a resident assistant in Marion/PE Clark and love to meet new people. I am stoked to be able to be a CSE mentor and can't wait to spend time with everyone!
